

## **3FX, inc. Letter of Intent to Join**

### **Network Holographic Dome NHD-EU Consortium European Strong Infrastructure of Knowledge Society**

3FX, inc. was founded in 1995 to offer full script-to-screen services for the planning, development, and production of custom 3D animated visualizations for use within a wide variety of 3D display, media, and technology solutions.

Designed with eye-catching motion and dynamic visual effects, our custom animation and visual display media is specifically developed to grab and maintain viewer's attention, enhancing and reinforcing the educational purpose of the intended message.

Following discussions regarding the needs and goals of the Network Holographic Dome project, and as the preferred vendor to plan, develop, and produce the full spectrum of full stage holographic animated content for the NHD, 3FX expresses its intention to join the European Consortium of Universities and Public Administration.

We look forward to aiding in the development of an economy based on knowledge according to the 2000 Agenda from Lisbon of the European Council.
