Ing.Cociuba Nica, www.kfp.ro

By this letter of intent, "AUREL VLAICU" UNIVERSITY OF ARAD expresses its intention to join the EUROPEAN CONSORTIUM "NHD-EU" of universities and public administrations, for realization of the strong infrastructure of the knowledge society that is revolutionizing the educational system by using holographic techniques.

NHD-EU, as a strong communicational infrastructure, can be connected also to European Institutions, business circles, etc. with beneficial effects for regional development and European integration.

The project "NHD-EU" Network Holographic Dome will connect European Universities, by changing the learning technique based on reading and writing to the use of holographic 3D images, with Immersion, Telepresence and Interaction possibilities and constituting itself as an engine for the development of economy based on knowledge and of Knowledge Society according to the 2000 Agenda from Lisbon of the European Council.

"NHD-EU" Network Holographic Dome project, started by Knowledge Fusion Platform – ing. Cociuba Nica, will be an essential contribution to the emergence of the concept of eEurope, with major implications in the process of Europeanization.
